Valuation for Traditional Retail Insurance Replacement

Item 1

One, 14ct yellow gold, gem set, 'solitaire' style ring, of cast construction.

Plain, narrow, high half round band of 1.73mm width (at base) x 1.81mm depth.

Feature 'cross over' style ring, with one raised termination having a four claw setting, housing one laboratory grown synthetic diamond, claw set.

Polished finish.

Stamped 'G585 ALE50 heart motif D0.50ct' - acid tested as 14 carat gold.

Ring size: J 1/2.

The ring contains:

One claw set round brilliant cut laboratory grown synthetic diamond, clarity is "Vs", colour is "G".

Dimensions = 5.09mm(Dia) x 3.10mm(D-estimated) x 2%(Girdle Thickness)

Total Weight = 0.50ct (estimated - see NOTE below)

Total Item Weight = 3.02 grams

Total Gemstone Weight = 0.50ct

Total Metal Weight = 2.92 grams (estimated)

NOTE: The central diamond has been inscribed on the girdle with 'LGD'. Due to setting constraints, the exact dimensions of the laboratory grown synthetic diamond cannot be ascertained. Therefore, weight of the laboratory grown synthetic diamond is very much an estimation. For an accurate weight, colour, and clarity grading, the laboratory grown synthetic diamond requires removal from the setting. The below replacement figure is based upon crafting a similar ring employing similar materials and techniques being for a retail insurance purpose only. This figure does not represent the previous selling price of the item and will not be indicative of the resale value of the item.

Insurance Replacement Valuation \$1,760.00

The total of the one item included in this valuation is One Thousand Seven Hundred and Sixty dollars.

Total Value = \$1,760.00

These items were valued for Cash Converters

The article(s) described above have been examined and the values given are an expression of our opinion on the date stated. Gemstones have not been removed from the settings for accurate assessment and all grades, weights, and dimensions are approximate, unless otherwise stated. Whilst all care has been taken in making this valuation, no liability is accepted other than to the person to whom the certificate is given for any errors or omissions, including any liability to the person by reason of negligence. This valuation is NOT transferable to any third person or party. Values expressed in Australian dollars (including GST) and are based on current market conditions. This valuation has been made with the standards and methods of the National Council of Jewellery Valuers, using accepted procedures, and systems advocated by this organisation. The values are based on the valuer's judgment of gemstone quality, mounting and manufacturing costs and are made to the best of the valuer's ability. A diamond colour grading of 'F' (Rare White Plus) or better and a clarity grading of Vvs (or better), cannot be given to a set diamond. A valuation of a certified diamond is based upon the gradings provided on the certificate. The replacement figure of older cut diamonds is based upon the modern cut equivalent of same estimated weight, colour, and clarity. A valuation for Traditional Retail Insurance Replacement does not infer any saving on a purchase price and will not be indicative of the resale value of the item.
