### Valuation for Traditional Retail Insurance Replacement

#### Item 1

One, 18ct white gold, gem set pendant, of cast construction.

Feature 'drop' style pendant, consisting of a four-claw railed and open back setting, housing one round cut and faceted treated black diamond type material, claw set.

Bail assembly is fixed to the top of the setting.

Polished finish.

Stamped '750' - acid tested as 18 carat gold.

Pendant dimensions = 13.85mm (length including bail) x 8.58mm (max. width) x 6.23mm (depth).

The pendant contains:

One claw set round brilliant cut treated black diamond type material.

Dimensions = 8.62mm(Dia) x 6.00mm(D-estimated) x 10%(Girdle Thickness)

Total Weight = 3.00ct (estimated - see NOTE below)

Total Item Weight = 1.23 grams

Total Gemstone Weight = 3.00ct

Total Metal Weight = 0.63 grams (estimated)

NOTE: The black gemstones may possibly be treated black diamond or treated synthetic black moissanite. Limited testing, whilst set cannot determine the nature of these gemstones. Therefore, the black gemstones require removal from their settings for full and accurate gemmological testing. Due to setting constraints, the exact dimensions of the gemstone cannot be ascertained. Therefore, weight of the gemstone is very much an estimation. For an accurate weight, colour, and clarity grading, the gemstone requires removal from the setting. The below replacement figure is based upon crafting a similar pendant employing similar materials and techniques being for a retail insurance purpose only. This figure does not represent the previous selling price of the item and will not be indicative of the resale value of the item.

**Insurance Replacement Valuation \$3,100.00**

The total of the one item included in this valuation is Three Thousand One Hundred dollars.

**Total Value = \$3,100.00**

These items were valued for Cash Converters

Exchange Rates: US\$ 0.6514 Yen 96.3932 Metal Prices (US\$/ounce) : Gold 3350.70 Silver 38.23 Platinum 1431.00

The article(s) described above have been examined and the values given are an expression of our opinion on the date stated. Gemstones have not been removed from the settings for accurate assessment and all grades, weights, and dimensions are approximate, unless otherwise stated. Whilst all care has been taken in making this valuation, no liability is accepted other than to the person to whom the certificate is given for any errors or omissions, including any liability to the person by reason of negligence. This valuation is NOT transferable to any third person or party. Values expressed in Australian dollars (including GST) and are based on current market conditions. This valuation has been made with the standards and methods of the National Council of Jewellery Valuers, using accepted procedures, and systems advocated by this organisation. The values are based on the valuer's judgment of gemstone quality, mounting and manufacturing costs and are made to the best of the valuer's ability. A diamond colour grading of "F" (Rare White Plus) or better and a clarity grading of Vvs (or better), cannot be given to a set diamond. A valuation of a certified diamond is based upon the gradings provided on the certificate. The replacement figure of older cut diamonds is based upon the modern cut equivalent of same estimated weight, colour, and clarity. A valuation for Traditional Retail Insurance Replacement does not infer any saving on a purchase price and will not be indicative of the resale value of the item.
