The articles described above have been examined and the values given are an expression of our opinion on the date stated. Gemstones have not been removed from the settings for accurate measurements and all grades, weights, and dimensions are approximate, unless otherwise stated. Whilst all care has been taken in making this valuation, no liability is accepted other than to the person to whom the certificate is given for any errors or omissions, including any liability to persons by reason of negligence. This valuation is not transferable to any third person or party. Values expressed in Australian dollars (including GST) and are based on current market conditions. This valuation has been made with the standards and methods of the National Council of Jewellery Valuers, using accepted procedures and systems endorsed by this organisation. The values are based on the valuer's judgment of gemstone quality, mounting and manufacturing costs and are made to the best of the valuer's ability. A diamond colour grading of "V" (Rare White Plus) or better and a clarity grading of Vvs (or better), cannot be given to a cut diamond. A valuation of a coloured diamond is based upon the gradings provided on the certificate. The replacement figure of older cut diamonds is based upon the modern cut equivalent of same estimated weight, colour and clarity. A valuation for Traditional Retail Insurance Replacement does not infer any saving as a purchase price and will not be indicative of the resale value of the item.
