Valuation for Traditional Retail Insurance Replacement

Item 1

One, hand assembled, necklace.

Fabricated from 22 carat yellow gold.

Of a decorative linkage design, with alternating rhodium plating to the inner sections.

Linkage of hollow construction.

Asian 'S' style clasp attached.

Decorative bell style end link sections.

Polished finish.

Stamped '916 37 with sun symbol 22K 916 SJ'.

Acid tested as 22 carat gold.

Necklace dimensions = 58.00cm (length including clasp) x 5.85mm (ave. width).

The article(s) described above have been examined and the values given are an expression of our opinion on the date stated. Gemstones have not been removed from the settings for accurate assessment and all grades, weights, and dimensions are approximate, unless otherwise stated. Whilst all care has been taken in making this valuation, no liability is accepted other than to the person to whom the certificate is given for any errors or omissions, including any liability to the person by reason of negligence. This valuation is NOT transferable to any third person or party. Values expressed in Australian dollars (including GST) and are based on current market conditions. This valuation has been made with the standards and methods of the National Council of Jewellery Valuers, using accepted procedures, and systems advocated by this organisation. The values are based on the valuer's judgment of gemstone quality, mounting and manufacturing costs and are made to the best of the valuer's ability. A diamond colour grading of "F" (Rare White Plus) or better and a clarity grading of Vvs (or better), cannot be given to a set diamond. A valuation of a certified diamond is based upon the gradings provided on the certificate. The replacement figure of older cut diamonds is based upon the modern cut equivalent of same estimated weight, colour, and clarity. A valuation for Traditional Retail Insurance Replacement does not infer any saving on a purchase price and will not be indicative of the resale value of the item.
