This certificate does not represent the second-hand resale value of the item. Second-hand value depends on market conditions, demand and negotiation, and is determined solely between the owner and a willing buyer. No guarantee is made or implied regarding the amount the item may achieve on the open market. The diamonds contained within the jewellery item assessed appear to comprise a mixture of natural and laboratory-grown diamonds. As the precise origin of each diamond cannot be conclusively established through the assessment undertaken, all diamonds have been valued on the basis of laboratory-grown origin. Further specialist laboratory testing and assessment will be required to determine and confirm the origin of the individual diamonds.
